

ADS Prime

Hardware Inclusions:

1. Single Nozzle Dispenser integrated within the same box includes:
 - a. **Rated** Up-to 40 LPM self-Primed centrifugal Pump
 - b. IN-Line UREA Concentration Sensor (FOR Real Time Concentration Monitoring)
 - c. 0.3% accuracy Flow Meter
 - d. 10m long NOZZLE HOSE
 - e. 14-digit Totalizers for each shift, day week month year and NON resettable totalizer

 - f. Boot-Up Log (For identifying power loss and frequent restart conditions)
 - g. Shift settlement and Records for easy monitoring of financial transactions.
 - h. Reset to Zero announcements over speaker for drivers (FOR no-Cheating while dispensing)
 - i. Boot Logs, Calibration Logs, Error logs and leakage detections.
 - j. 3 months or 15000 transactions local Storage Available
 - k. Emergency Stop Control Button
 - l. Audio Speaker Output for Better understanding of Customers
 - m. Inbuilt 2-inch Thermal Printer for Receipt Printing.

 - n. IOT Connectivity using GSM, Ethernet and WI-FI for real-time monitoring of Dispenser.
 - o. Device Debugging OVER USB with Support Mobile App Integrations
 - p. Over the Air Firmware for feature Updates
 - q. Automatic dispenser lock when left unattended.
 - r. OTP based Calibration with last 20 calibration Logs recorded Locally as well

 - s. Isolation Transformer for Surge Protection (240 to 180V)
 - t. Power Control Relay for Electronics Input Power control.
 - u. ELCB, EMI /EMC Filter with SPD for better Circuit Stability and earthing leakage detection
 - v. BETTER DV/DT and DI/DT Protections with short circuit protections
2. Nozzle Hose Pipe 10-meter ¾" Pipe.
3. Inline DEF quality Quality sensor with auto cut-off when quality rejected
4. IOT enabled with GSM / Wi-Fi / Modbus RTU / RS232 / USB based Communication Option.
5. AdBlue quality Sensor (urea content)
6. 4KL storage Tank
7. Inlet pump with Recanting / Recirculating feature and Inlet Control valve

Software Inclusions:

1. Advanced Android Mobile application
2. Real-Time Dispenser Monitoring
3. OTP based calibration
4. All reports are Printable in A4/ A5 pages, exportable in PDF and Excel
5. Calibration & Configurations control from Remote Location
6. SET ACCESS RIGHTS and limitations for Each Employees
7. Rate control can be change from LOCAL to Central and vice Versa
8. Remote locking of Dispenser for unauthorized Usage.
9. Set Transaction Limits for customers, Employees if needed else leave it to default for no limit.
